As an ambitious Business Analyst and Software Developer, my motivation and self-learning abilities propel my professional growth. Excelling in both independent and team-based environments, I'm always ready to lend a helping hand or seek assistance when necessary. I am fueled by an insatiable curiosity and an eagerness to acquire new skills continuously. My proven time management abilities enable me to prioritize tasks effectively in high-velocity settings. Drawing from my experience in Python-based design and software development and mobile application programming in Swift iOS and Java Android, I am adept at creating impactful solutions. My back-end development proficiency includes Firebase and local SQL data storage, ensuring seamless data management. My expertise in Microsoft Office Suite - Excel, Word, and PowerPoint - enhances my efficiency and productivity. I possess robust oral and written communication skills that enable me to articulate complex ideas and thoughts precisely. I bring a creative approach to problem-solving. With a logical and analytical mindset, I can confidently make sound decisions and tackle challenges. As a detail-oriented team player, I excel in fostering collaboration and driving successful outcomes.

TOOLS

- Python programming
- R statistics
- MySQL database
- Firebase and Google Cloud
- Swift – iOS
- Java – Android
- Power-BI, Excel
- Git
- ArcGIS

EDUCATION

Post Graduate Diploma in Business Analytics Cambrian College, Sudbury, Ontario

Period: October 2022 – June 2023 - I excelled academically during this intensive study period, achieving a perfect 4.0 GPA. The curriculum of this program equipped me with comprehensive business analytics knowledge, such as understanding and interpreting business data, leveraging data-driven decision-making tools, and strategic planning.

Post Graduate Diploma in Mobile Application Development Cambrian College, Sudbury, Ontario

Period: January 2022 – October 2022 - Within this highly focused program, I again attained an outstanding 4.0 GPA. The coursework entailed an in-depth understanding and hands-on experience developing mobile applications across multiple platforms, including iOS and Android. It honed my programming skills and fostered a firm grasp of mobile interface design and user experience.

Bachelor of Engineering (Hons) in Software Engineering University of Greenwich, London, United Kingdom

Period: September 2009 – June 2012 - I completed my undergraduate studies majoring in Java and graduated with an overall grade of 2:2. This degree laid the groundwork for my subsequent specializations, and nurtured my understanding of software development, design principles, and systems analysis. I honed my Java and general problem-solving and coding skills during this time.

EXPERIENCE

Sofvie Inc., Sudbury, Ontario, Canada — *Internship*

Jun 2023 – Aug 2023
